RESPONSE TO NOTICE TO COMPLY WITH REQUIREMENTS FOR PATENT APPLICATIONS CONTAINING NUCLEOTIDE SEQUENCE AND/OR AMINO ACID SEQUENCE DISCLOSURES

Sir:

In response to the Office Action mailed January 13, 2009, Applicants respectfully submit a copy of the Notice to Comply and a copy of the Sequence Listing in computer-readable form. Because this document is being filed via the electronic filing system, it is believed that no paper copy is required.

The undersigned states that the content of the attached computer-readable file is identical in content to that of the Sequence Listing published as part of the International Application (PCT EP2005/003043) on which the present application is based, except for the updating of current and priority application information. Accordingly, the present submission does not constitute the addition of new matter.
